1. Scope

This Specification Information Note (SIN) covers changes against the 07-Jul-2000 version of the WTAIPDC specification.

All WAP specifications shall indicate their dependencies to other WAP specifications as explained in the document WAP-DID-ConfReqSpec, Proposed Version 15-Sep-2000. That document also defines the exact syntax to be used in the SCR. This SIN describes how the SCR section in the WTAIPDC specification needs to be updated with respect to dependencies and appropriate syntax.

3. Change 1 Modifications to Appendix B. Static Conformance Requirements

3.1 Change Classification

1 – New Feature, Major Change or Market Effecting Change	[]
2 – Bug Fixes	[X]
3 – Clerical Corrections	[]

3.2 Change Summary

The following changes are made in Section Appendix B. Static Conformance Requirements:

- Requirement columns are added in all the SCR tables. The requirement column should express other features required by this feature independent of whether those other features are mandatory or optional. If there are no requirements for a feature the column must be left empty.
- The Item-, reference- and status columns are updated according to new syntax.
- All descriptive text is removed from Appendix B. Static Conformance Requirements.
- Items previously missing despite normative statements in the specification have been added.
- Editorial changes.

3.3 Change

Appendix B. Static Conformance Requirements

~~This static conformance clause defines a minimum set of features that should be implemented to ensure that WTA could interact with the mobile network. A feature can be optional or mandatory. Although a function is mandatory it may not work, e.g. if the corresponding feature it is not implemented in the mobile or in the network or if the user has no subscription for this feature.~~
