1. Scope

This Specification Information Note (SIN) covers a change against the 07-Jul-2000 version of the WTAIGSM specification. The change adds a transition in the Outgoing Call Model from state “waiting for ringing” to state “call active” following the occurrence of a “Call Connected” event.

3.2 Change Summary

Outgoing Call Model

Adding a transition in the Outgoing Call Model from state “waiting for ringing” to state “call active” if the “Call Connected” event occurred.

The transition was added due to:

1. GSM networks support this transition for calls (GSM 04.08)
2. WTAIGSM outgoing call model extends the WTAI outgoing call model that includes this transition.

3.3 Change

5.1.1 GSM Call States – GSM WTA Outgoing Call Model figure modification.
