for

Wireless Application Protocol
WAP-175-CacheOp-20010731-a
Cache Operation
Version 31-Jul-2001

A list of errata and updates to this document is available from the WAP Forum™ Web site, http://www.wapforum.org/, in the form of SIN documents, which are subject to revision or removal without notice.

## Contents

1. **SCOPE** ...........................................................................................................................................................................................4  
2. **NOTATION** .................................................................................................................................................................................4  
3. **SCR TABLE CORRECTIONS** .......................................................................................................................................................5  
   3.1 **CHANGE CLASSIFICATION** ..................................................................................................................................................5  
   3.2 **CHANGE SUMMARY** ............................................................................................................................................................5  
   3.3 **CHANGE DESCRIPTION** ..........................................................................................................................................................5
1. Scope

This document provides changes and corrections to the following document files:

- WAP-175-CacheOp-20010731-a

2. Notation

In the subsections describing the changes new text is underlined. Removed text has strikethrough marks. The presented text is copied from the specification. Text that is not presented is not affected at all. The change descriptions may also include editor’s notes similar to the one below. The notes are not part of the actual changes and must not be included in the changed text.

**Editor's note:** Framed notes like these only clarify where and how the changes shall be applied.
3. SCR Table Corrections

3.1 Change Classification

Class 3 – Clerical Corrections

3.2 Change Summary

The SCR states that XML validation is mandatory, while it is declared to be optional in the specification text. This document amends the corresponding SCR table entry.

3.3 Change Description

| CO-VAL-S-002 | XML validation | 9.2.1 | M |
