Use of this document is subject to all of the terms and conditions of the Use Agreement located at <http://www.openmobilealliance.org/UseAgreement.html>.

Unless this document is clearly designated as an approved specification, this document is a work in process, is not an approved Open Mobile Alliance™ specification, and is subject to revision or removal without notice.

You may use this document or any part of the document for internal or educational purposes only, provided you do not modify, edit or take out of context the information in this document in any manner. Information contained in this document may be used, at your sole risk, for any purposes. You may not use this document in any other manner without the prior written permission of the Open Mobile Alliance. The Open Mobile Alliance authorizes you to copy this document, provided that you retain all copyright and other proprietary notices contained in the original materials on any copies of the materials and that you comply strictly with these terms. This copyright permission does not constitute an endorsement of the products or services. The Open Mobile Alliance assumes no responsibility for errors or omissions in this document.

Each Open Mobile Alliance member has agreed to use reasonable endeavors to inform the Open Mobile Alliance in a timely manner of Essential IPR as it becomes aware that the Essential IPR is related to the prepared or published specification. However, the members do not have an obligation to conduct IPR searches. The declared Essential IPR is publicly available to members and non-members of the Open Mobile Alliance and may be found on the “OMA IPR Declarations” list at <http://www.openmobilealliance.org/ipr.html>. The Open Mobile Alliance has not conducted an independent IPR review of this document and the information contained herein, and makes no representations or warranties regarding third party IPR, including without limitation patents, copyrights or trade secret rights. This document may contain inventions for which you must obtain licenses from third parties before making, using or selling the inventions. Defined terms above are set forth in the schedule to the Open Mobile Alliance Application Form.

NO REPRESENTATIONS OR WARRANTIES (WHETHER EXPRESS OR IMPLIED) ARE MADE BY THE OPEN MOBILE ALLIANCE OR ANY OPEN MOBILE ALLIANCE MEMBER OR ITS AFFILIATES REGARDING ANY OF THE IPR'S REPRESENTED ON THE “OMA IPR DECLARATIONS” LIST, INCLUDING, BUT NOT LIMITED TO THE ACCURACY, COMPLETENESS, VALIDITY OR RELEVANCE OF THE INFORMATION OR WHETHER OR NOT SUCH RIGHTS ARE ESSENTIAL OR NON-ESSENTIAL.

THE OPEN MOBILE ALLIANCE IS NOT LIABLE FOR AND HEREBY DISCLAIMS ANY DIRECT, INDIRECT, PUNITIVE, SPECIAL, INCIDENTAL, CONSEQUENTIAL, OR EXEMPLARY DAMAGES ARISING OUT OF OR IN CONNECTION WITH THE USE OF DOCUMENTS AND THE INFORMATION CONTAINED IN THE DOCUMENTS.

## 3. Terminology and Conventions

### 3.1 Conventions

The key words “MUST”, “MUST NOT”, “REQUIRED”, “SHALL”, “SHALL NOT”, “SHOULD”, “SHOULD NOT”, “RECOMMENDED”, “MAY”, and “OPTIONAL” in this document are to be interpreted as described in [RFC2119].

All sections and appendixes, except “Scope”, "Release Version Overview" and “Conformance Requirements Notation Details”, are normative, unless they are explicitly indicated to be informative.

The formal notation convention used in sections 8 and 9 to formally express the structure and internal dependencies between specifications in the Enabler Release specification baseline is detailed in [SCRRULES].

### 3.2 Definitions

<b>CMR Subscriber</b>	See [CMR_RD]
<b>Content Provider</b>	See [OMADICT]
<b>Enabler Release</b>	Collection of specifications that combined together form an enabler for a service area, e.g. a download enabler, a browsing enabler, a messaging enabler, a location enabler, etc. The specifications that are forming an enabler should combined fulfil a number of related market requirements.
<b>Minimum Functionality Description</b>	Description of the guaranteed features and functionality that will be enabled by implementing the minimum mandatory part of the Enabler Release.
<b>Service Provider</b>	See [OMADICT]

### 3.3 Abbreviations

<b>CMR</b>	Customized Multimedia Ringing
<b>CP</b>	Content Provider
<b>ERDEF</b>	Enabler Requirement Definition
<b>ERELED</b>	Enabler Release Definition
<b>OMA</b>	Open Mobile Alliance
<b>OMNA</b>	Open Mobile Naming Authority
<b>SP</b>	Service Provider

## 4. Release Version Overview

Customized Multimedia Ringing (CMR) is an enabler that can present multimedia resources to an end user according to a specified event, e.g. the establishment of a call, the arrival of a message or mail. A typical example of the CMR service is that the traditional ring back tone or ringing tone during call establishment can be replaced by the multimedia resources customized by the subscriber. The CMR enabler will provide following main functionalities.

- CMR service management: CMR services are provided based on the preferences customized by the CMR Subscriber/SP which consists of presentation rules, priority, filter settings and so on. The service management also include CMR Subscriber's personal resource library management, system setting management and so on.
- CMR Resource management: CMR Resource management includes the management of the CMR Resource metadata and CMR Resource Box (e.g. changing the name of the CMR Resource and define the CMR Resource Box).
- CMR Resource delivery and presentation control
  - Present the appropriate CMR resource according to the presentation rules.
  - Presentation control before or during the presentation (e.g. filter CMR Resource or stop CMR Resource presentation)
- The other basic functions of CMR Enabler include:
  - Charging: When CMR Subscriber manages the CMR Resources and CMR service or when the CMR service is delivered, CMR Enabler interacts with Charging Enabler when charging events occur.
  - Security: CMR Enabler supports the mechanisms to ensure the secure CMR Resource delivery and CMR service/CMR Resource management (e.g. authenticate/authorization of CP/SP/CMR Subscriber).
  - Privacy: CMR Enabler has the mechanisms to defend the privacy of CMR Subscribers.
  - Open APIs: other OMA/non-OMA enablers or the third party applications can invoke the open APIs of CMR Enabler to implement the CMR services.

### 4.1 Version 1.0 Functionality

The Version 1.0 functionalities contain all the functions described in the above paragraph except the charging function and some presentation control functions. The details of the version 1.0 functionalities refer to [CMR\_RD].

### 4.2 Next Version Functionality

The next version functionalities include the charging functions and some presentation control functions which are indicated as future releases in [CMR\_RD].

## 5. Document Listing for CMR

This section is normative

Doc Ref	Permanent Document Reference	Description
<b>Requirement Document</b>		
[CMR_RD]	OMA-RD-CMR-V1_0-20120320-A	Requirement Document for CMR Enabler
<b>Architecture Document</b>		
[CMR_AD]	OMA-AD-CMR-V1_0-20120320-A	Architecture Document for CMR Enabler
<b>Technical Specifications</b>		
[CMR_TS]	OMA-TS-CMR-V1_0-20120320-A	Technical Specification for CMR Enabler
<b>Supporting Files</b>

**Table 1: Listing of Documents in CMR Enabler**

## 6. OMNA Considerations

The Version 1.0 release of the CMR Enabler does not have any OMNA items for handling.

Note: This determination may be changed when the CMR processing move on.

## 7. Conformance Requirements Notation Details

This section is informative

The tables in following chapters use the following notation:

- Item:** Entry in this column **MUST** be a valid `ScrItem` according to [SCRRULES].
- Feature/Application:** Entry in this column **SHOULD** be a short descriptive label to the **Item** in question.
- Requirement:** Expression in the column **MUST** be a valid `TerminalExpression` according to [SCRRULES] and it **MUST** accurately reflect the architectural requirement of the **Item** in question.

## 8. ERDEF for CMR - Client Requirements

This section is normative.

Item	Feature / Application	Requirement
<i>Not yet available</i>		

Table 2: ERDEF for CMR Client-side Requirements

## 9. ERDEF for CMR - Server Requirements

This section is normative.

Item	Feature / Application	Requirement
<i>Not yet available</i>		

Table 3: ERDEF for CMR Server-side Requirements

## Appendix A. Change History

(Informative)
