Problems Identified						
APN test : unable to retrieve resource 10/0/11 with content format specified Bearer Test : not object 12/ bad request to create and delete instance portfolio						

- object didnt provide with resource 13 14
Not testing full firmware upgrade today.
smnc issue - device reports as string for complete representation of smnc space
incompatible dtls cipher suites
215: device POST tlv parse issue

Explanation of Test Cases Results

PASS: Both teams agree that they Pass – Criteria has been met

FAIL: Both teams agree that they Fail – Criteria has not been met

INCONCLUSIVE: Teams are not in agreement of the Test result

NOT APPLICABLE: Test cannot be performed due to lack of support by either of the implementations

OUT OF TIME: There was not enough time to test the Test Case
